Inspired by nature, embedded in history

Morpho by Tomorrowland aspires to create a contemporary Art Nouveau collection of furniture, fixtures, and accessories for the home.

Morpho by Tomorrowland is created by Tomorrowland Design Studio, under the creative direction of architect Dieter Vander Velpen. The collection blends contemporary design with the organic spirit of Art Nouveau, shaped by nature's own geometry. It moves from the delicate structure of dragonfly wings to the curves of roots, branches, and flowing voronoi patterns.

Each piece is shaped through Belgian craftsmanship, as Ethnicraft translates Morpho by Tomorrowland's sculptural language into refined woodwork, Atelier Vierkant forms hand-crafted ceramic planters with natural depth, and rvb® brings the brand's nature-driven geometry to life in a series of artisanal faucets.

A UNIQUE COLLABORATION

The elements that made Morpho by Tomorrowland come to life

Over the past two decades, Tomorrowland has evolved into one of the most notable music festivals and a true global phenomenon that connects people from every corner of the world. Year after year, it creates a magical place where equality and uniting as one are central, symbolizing happiness, freedom, respect, diversity, and solidarity.

Design has always been deeply embedded in Tomorrowland's DNA, brought to life by an in-house creative team that meticulously crafts every detail — from immersive stage designs developed entirely from A to Z to storytelling through design that enhances the festival experience.

Now Tomorrowland is expanding its universe to transcend the ephemeral into a world of spaces and objects through Tomorrowland Design Studio.

TOMORROWLAND DESIGN STUDIO

Tomorrowland Design Studio is the continuation of a decade-long collaboration between Tomorrowland and architect Dieter Vander Velpen, the creative lead of the studio.

Tomorrowland's curated universe aligns naturally with Vander Velpen's ability to craft atmospheric, bespoke environments, united by a shared ambition to transform the festival's ephemeral magic into a lasting architectural legacy.

The studio operates with a dual mission: to create enduring physical spaces — including hotels, restaurants and private residences — while also developing inspiring objects and furniture collections that translate Tomorrowland's essence into everyday life. For Morpho by Tomorrowland, Tomorrowland Design Studio translates nature's patterns, colors and materials into functional, modern design.

OUR STORY

Nature is Morpho by Tomorrowland's number one inspiration in all its perfection and imperfection. With its contemporary Art Nouveau approach, the brand finds inspiration in nature's patterns, colors and materials, seamlessly blending the tranquility of the natural world with the functionality of modern design.

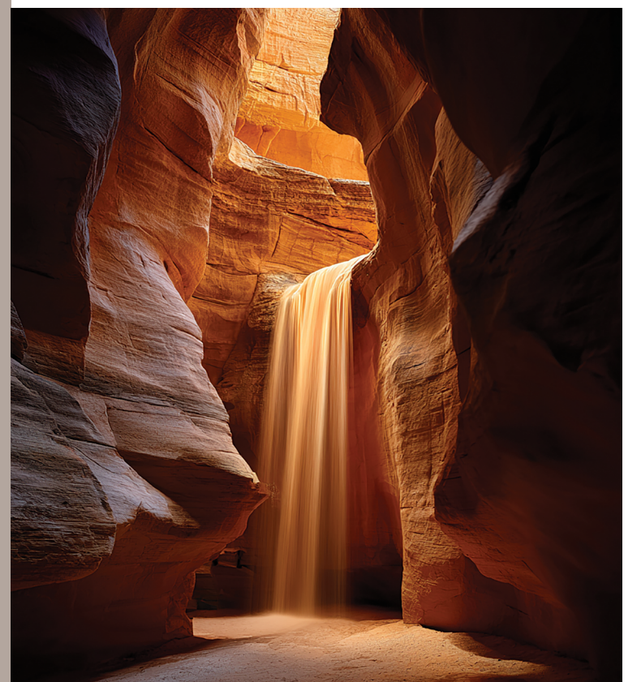

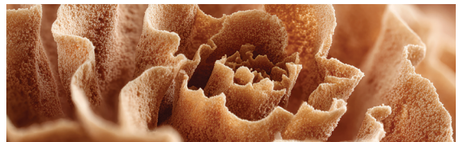

Morpho by Tomorrowland, an ethereal wonder

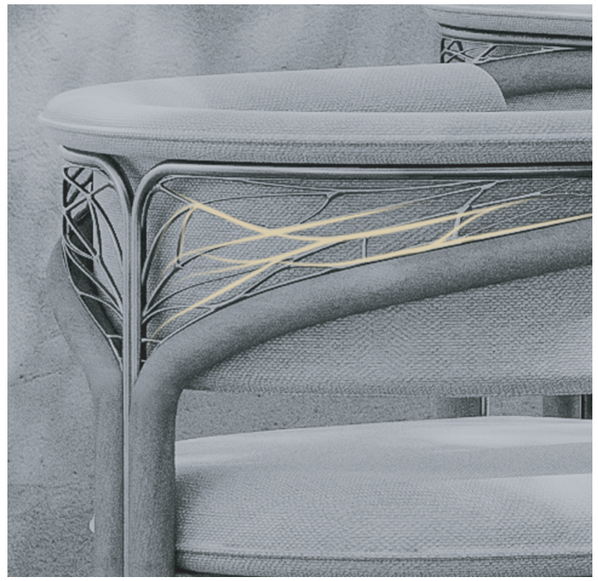

In the heart of Tomorrowland's vast universe lies the magical tale of 'The Spirit of Life', where a dragonfly named Morpho by Tomorrowland dances amidst a symphony of nature's wonders. Inspired by this ethereal creature and its intricate wings, we present the Morpho by Tomorrowland furniture collection — a harmonious blend of organic beauty, contemporary design, and timeless craftsmanship.

"A small dragonfly hovered in the air in front of her face, its tiny multifaceted eyes examining her while its slender wings blurred together in an iridescent shimmer of light. Light fell through it, as if it was made of glass itself, aglow from within.

The colors twisted together and reformed even as she watched it. Green light. Falling through twigs and leaves... This couldn't be real."

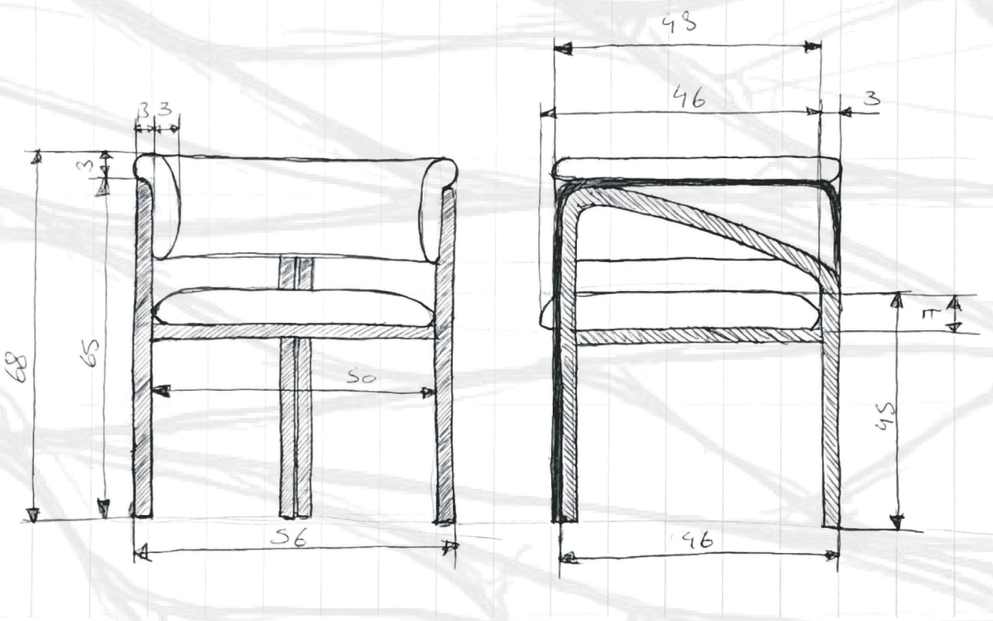

- The Spirit of Life

Nature's artistry as inspiration

Blend & Combine

Echoing the unique and varied possibilities of our natural world, Morpho by Tomorrowland aims to offer ample flexibility in material selections.

The combination of wood, metals, natural stones, leathers, and fabrics allows customers to curate products that suit their home, inviting a sense of wonder into both their living space and life.

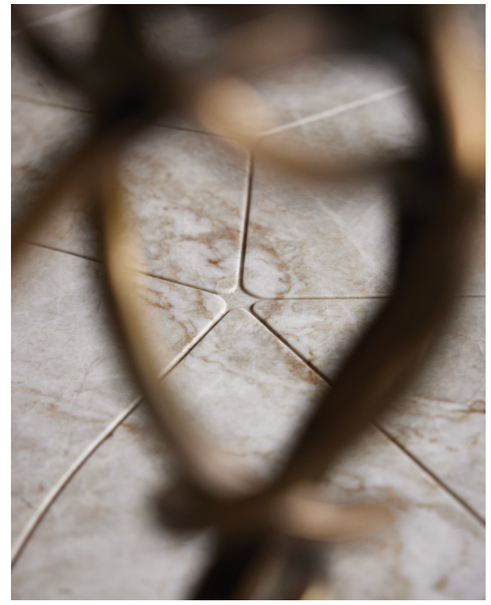

Crafted by Artisans

Morpho by Tomorrowland joins forces with skilled artisans and makers to create its pieces, transforming intricate concepts into tangible forms. Each item is shaped by nature's finest details and brought to life through time-honored techniques.

Belgian furniture maker Ethnicraft, Brussels-based rvb® and Atelier Vierkant shape the world of Morpho by Tomorrowland through their expertise, craftsmanship and thoughtful making.

Ethnicraft has spent nearly three decades honing its craft, creating furniture that values simplicity, quality, and character. With a deep understanding of solid wood and time-tested expertise in furniture making, their collections celebrate the beauty of natural materials, designed to evolve gracefully with time.

In their Indonesian workshops, skilled artisans blend traditional woodworking techniques with contemporary influences, ensuring every piece reflects both meticulous craftsmanship and modern sensibility. The result is Morpho by Tomorrowland — a collection thoughtfully crafted to endure and be cherished for generations.

ETHNICRAFT

ATELIER VIERKANT

The handcrafted clay creations of Atelier Vierkant are conquering the world and can be admired in the most exclusive locations. In their Belgian studio, clay coming from Western Europe is transformed into unique handcrafted pots. 70 tonnes per week.

Atelier Vierkant's authentic designs of artisanal quality are design pieces with a heart and soul: made by hand, slowly and meticulously. Sleek, but never cold. Two pieces are never exactly alike. Each design that leaves the premises is entirely unique and bears the stamp of its creator.

Willy and Annette Janssens, the founders and designers of Atelier Vierkant, are endlessly at work in their studio: «Clay is our foundation and it is with that material that we begin our journey. We think with our hands and the rest follows.» In doing so Atelier Vierkant is continuously stretching its technical boundaries in order to reach results that hardly seem possible. Architectural, functional elements and artistic sculptures at the same time.

RVB®

Since 1935, Brussels based rvb® aims to produce taps based on innovative and sustainable ideas.

The brand integrates 90 years of craftsmanship, know-how and industrial invention. They keep the tradition alive whilst always pushing technical limits.

Combining traditional expertise with industrial technology, from precise machining of noble solid materials to the careful finishing and final assembly and testing, the entire process is mastered locally. The quest for perfection and the obsession for meticulous craftsmanship are incorporated by the company in all in-house production stages, making rvb® an industry reference in terms of service and product quality.

Organic beauty, contemporary design and timeless craftsmanship - driven by the magic of storytelling

FURNITURE

Every piece that passes through Ethnicraft's workshops carries the imprint of nature's perfection — impeccably carved, shaped, and finished by skilled artisans.

Their expertise in solid wood, combined with Morpho by Tomorrowland's modern Art Nouveau vision, has resulted in a collection that is both functional and poetic. Every detail, from the curvature of a chair to the engraved surface of a table, reflects their mutual belief in design that is made to last.

Dining Chair
Eivissa

L: Natural Teak with Beige Bouclé for outdoor use
R: Dark Brown Teak with Beige Chenille for indoor use

For Eivissa, fluid lines and sculptural balance come together in a design that reveals its beauty from every angle. Effortless and refined, the chair embodies the ease of island living, whether placed beneath palm trees or brought indoors as a subtle escape.

Available in dark brown teak or varnished oak with options in nutmeg and black leather or beige and ivory chenille, the indoor version offers a warm, refined finish. The outdoor version comes in natural teak, with or without rattan, and comes with loose cushions in beige bouclé or green structured fabric.

Eivissa is available for indoor and outdoor use.

Dining Chair
Volita

L: Dark Brown Teak with Black Leather and Bronze-Coloured Metal
R: Oak Wood with Beige Chenille and Brass-Coloured Metal

The iconic dragonfly has served as the main source of inspiration for Volita. In the signature dining chair, we see the pattern of the fantastical creature's wings reflected in the delicate metal detailing.

Options include dark brown teak or natural oak, green or tobacco velvet, nutmeg or black leather, ivory or beige chenille and brass or bronze metal.

Volita is available for indoor use.

Dining Table
Cena

L: Oak Wood with engraved Beige Quartzite top
R: Dark Brown Teak with engraved Beige Quartzite top

The organic shapes of roots and branches of trees, their twists and turns provided the main source of inspiration for the collection's dining table. The tabletop takes inspiration from Voronoi patterns, which are found all around nature — from giraffe's coats to honeycombs.

Options include varnished oak, dark brown teak frame and a wooden, beige quartzite or green marble top.

Cena is available for indoor use and will soon be available for outdoor use.

Bar Stool
Aleta

L: Dark Brown Teak with Black Leather, Bronze-Coloured Metal for indoor use
R: Natural Teak with Beige Chenille, Brass-Coloured Metal for outdoor use

Aleta, meaning “little wing”, mirrors the shape of a dragonfly’s wings, offering a subtle nod to this delicate creature.

Indoor options include varnished dark brown teak or varnished oak, green or tobacco velvet, black or nutmeg leather, ivory or beige chenille, and brass or bronze metal accents.

Outdoor options come in natural teak with beige bouclé or in green structured fabric, with brass metal accents.

Aleta will be available for indoor and outdoor use.

Lounge Chair
Vime

L: Dark Brown Teak with Leather Back and Beige Chenille fabric for indoor use
R: Teak Wood with Beige Cord and Beige Bouclé fabric for outdoor use

The Vime lounge chair's flowing lines and plush pillows invite both indoor and outdoor lounging.

Indoor options include dark brown teak or varnished oak, tobacco or green velvet, beige or ivory chenille and black or nutmeg leather for the upholstery, and three leather colors with embroidered detailing for the back.

Outdoor options include natural and black-tainted teak, a choice of four outdoor fabrics and a woven back.

Vime is available for indoor and outdoor use.

Adjustable Lounger
Zen

L: Natural Teak with Dark Brown textured outdoor fabric, Brass-Coloured Metal
R: Black Teak with Beige outdoor fabric, Bronze-Coloured Metal

Just like our dining table and lounge chair, the Zen adjustable lounger draws inspiration from roots, twigs and branches. The unexpected addition of patterned metal detailing in the back adds a decorative surprise.

Options include natural or black-tainted teak, a selection of four outdoor fabrics, and bronze or brass metal accents.

Zen is available for outdoor use.

Round Daybed
Solis

L: Black Teak with Dark Brown textured outdoor fabric
R: Natural Teak with Bouclé outdoor fabric

Solis is designed for sun worship, whether by the pool in Ibiza or on a rooftop terrace in New York. Its distinctive round shape, complemented with plush cushions, creates the most luxurious and inviting spot for relaxation.

Options include natural and black-tainted teak and a selection of four outdoor fabrics.

Solis is available for outdoor use.

PLANTERS

Atelier Vierkant creates handmade ceramics in Belgium, blending art and nature to enhance indoor and outdoor spaces with timeless beauty.

For Morpho by Tomorrowland they craft two lines of planters, translating the brand's flowing lines with their signature craftsmanship. Authentic designs of artisanal quality, design pieces with a heart and soul: made by hand, slowly and meticulously.

Planters
Argila

L: Black Textured Clay with indented detail
R: Red Textured Clay with indented detail

Argila is the newest addition to the Morpho by Tomorrowland range. Staying true to its flowing design language, Argila is crafted out of textured clay, and has signature recessed details highlighting its curvy shapes.

Expertly made by Atelier Vierkant in their seaside ateliers in Belgium, Argila will be available in terracotta and black clay.

Sizes in cm include: Low (55h x 150w) , Small (60h x 98.5w), Medium (92.5h x 95w), Tall (130h x 75w).

Planters
Lutala

L: White pot with Brass frame
R: Black pot with Metallic frame

Lutala is the first handmade planter in our collaboration, made to suit both your garden, terrace and home. Crafted out of clay, Lutala can be used both in- and outdoor. The pot is carried in a frame inspired by branches of trees.

Expertly made by Atelier Vierkant in their seaside ateliers in Belgium, Lutala will be available in extra white, white, and black clay. The frame will be available in brass, metallic and ton-sur-ton clay.

Sizes in cm include: Low (30h x110w) , Small (41h x 85w), Medium (80h x 100w), Large (105h x 127w).

FAUCET COLLECTION

Drawing on 90 years of craftsmanship, know-how, and industrial invention, rvb® preserves tradition while continuously pushing technical boundaries. With its products crafted from noble solid materials, their entire process is mastered locally, making rvb® an industry benchmark.

For Morpho by Tomorrowland, rvb® pushes the boundaries once again, from its open spout hammered design, to the marble stone mixers, Mirari is a true masterpiece of craftsmanship.

Table-Mounted Washbasin Faucet
Mirari

L: Brushed Brass PVD with Natural Stone
R: Matt Nickel with Natural Stone

Drawing inspiration from nature's finest treasures, the iconic Morpho by Tomorrowland basin tap, featuring its open spout "Art", is a true masterpiece of craftsmanship — an exceptional work of precision and artistry.

Designed to be a statement piece in any interior, whether in a bathroom or a wellness space, the Mirari basin tap combines precious marble with solid brass. These robust and timeless materials ensure both unparalleled luxury and exceptional durability.

3-hole washbasin faucet.
Available with solid spout or hollow spout with hammered tube.

Wall-Mounted Washbasin Faucet
Mirari

L: Brushed Black Chrome PVD with Natural Stone
R: Brushed Brass PVD with Natural Stone

With its sleek wall-mounted design, the Mirari 3-hole basin faucet seamlessly blends into the space's architecture, creating a sense of purity and lightness.

Designed to enhance every bathroom, this tap embodies timeless luxury and exceptional craftsmanship.

Available in multiple finishes, it complements the most sophisticated interiors and ensures a perfect fit for any high-end design project.

3-hole wall-mounted washbasin faucet.
Available with solid spout or hollow spout with hammered tube.

Shower Set
Mirari

L: Brushed Brass PVD with Natural Stone
R: Brushed Black Chrome PVD

The Mirari shower set will elevate your morning shower into a moment of absolute luxury and relaxation.

Every element, from the shower head to the mixers, has been meticulously designed to achieve the perfect balance between aesthetics and performance.

Shower tap set with shower head and arm, concealed thermostat with 2 stop-valves and hand shower with holder.

Bath Set

Mirari

L: Matt Nickel PVD with Natural Stone
R: Brushed Brass Chrome with Natural Stone

The Mirari bath set will be the jewel piece in every bathroom, turning your bathtime ritual into a moment of luxurious bliss.

Every element, from the spout to the mixers, has been meticulously designed to achieve the perfect balance between aesthetics and performance.

5-hole bath faucet, with diverter and handshower.
