Made in Belgium

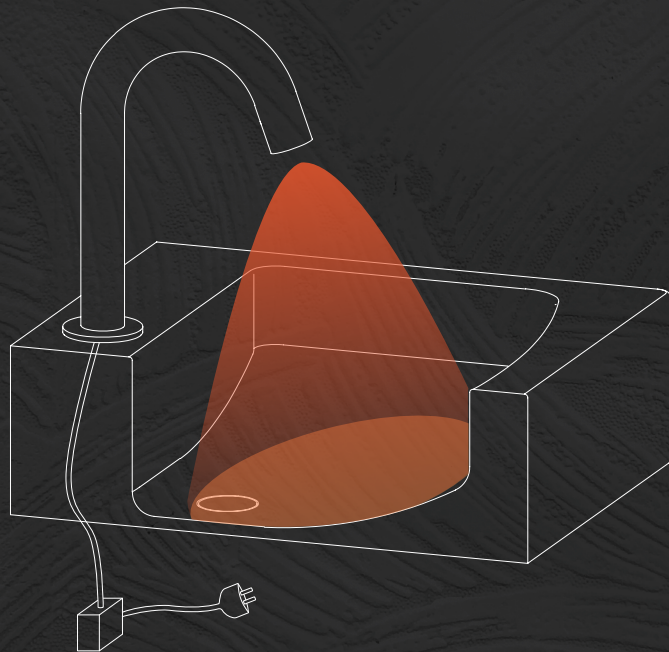

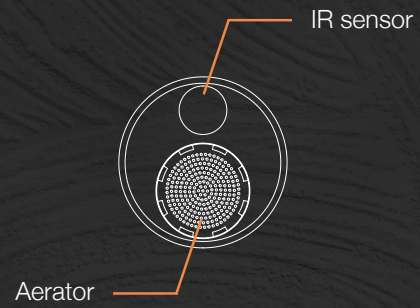

e-Motion

e-Motion is the next generation of infrared faucet with its innovative technology. Its sleek, timeless and ergonomic design allows it to fit into any interior. This tapware is made in 316 stainless steel, a material that is extremely resistant to corrosion and remarkably easy to maintain.

Ref : 5001.09.33

Behind its simple and minimalist shape, this tap hides a wealth of technology. The infrared sensor integrated next to the aerator prevents unnecessary activation. A single presence of your hands under the spout is enough to trigger its operation, just the needed time.

Complete technical file

Water savings

Flow time adjustment*

Detection distance adjustment*

Temperature adjustment**

Its advanced technology allows significant water and energy savings, thanks to the instantaneous flow shut-off and the optional temperature adjustment. Its 4,5 litre/minute aerator limits the flow of water to ensure a reduction of around 85% in overall consumption.

* factory preset or by smartphone compatible wireless communication connector (not included)

** optional
